

## **The role of a Digital Leader at Our School will be:**

1. Presenters
2. Digital Journalists
3. Technical Support
4. Working in teams and with new people
5. Carrying out technology projects
6. Having fun and learning new skills

## **This role also involves:**

- Helping to write blog posts about being a Digital Leader on the Computing section of the school website.
- At times, and with your class teacher's permission, support teachers across the school when they teach computing and use new hardware or software.
- Trialling new software as required and write reviews about what is successful and has an impact on learning or not.
- Help to maintain our devices including keeping them charged, tidy and running smoothly.
- Go on computing learning walks to see what's going on across the school and take photos to put on website.
- Find out what other people think about computing in school, listening to their views and ideas.
- Teach pupils across the school.
- Act as online safety ambassadors.
- Report to Mr Wells about how technologies are being used in school
- Work with Digital Leaders from other schools to receive training, share good ideas and explore exciting stuff.
- Have a great deal of fun!

## **Person Specification/ requirements:**

- Good organisation skills and time management.
- Ability to be dependable and resourceful.
- Able to work with others effectively.
- Able to lead training and support others in their role.
- Ability to make effective decisions and involve others in this.
- Ability to be patient and to work methodically.
- Ability to have ideas and be creative.
- Confident with good communication skills

## **Your teacher will:**

- Make sure you have enough training with a suitable level of responsibility to manage the tasks above.
- Give you exciting projects to do.
- Support you with your role.
