

Digital Leaders

Dear Parent/Carer,

Your child has shown an interest in being part of a Digital Leaders team. This is a new role at Bowsland Green, and the exact nature of the role will develop over time, but the types of responsibilities they would have include:

- Adding to the computing area of the school website,
- Trialling new software and websites, then demonstrating them to other children and teachers
- Setting up technology in classrooms for teachers to use with their classes.

There will be 4 Digital Leaders from Years 5 and 6 with opportunities for other children to be involved in projects. As I anticipate more than two children from each class will be interested, I have set up a simple application form for them to complete to explain why they think they should be a Digital Leader. As part of this team, they will have extra responsibilities over certain areas of our school and need to be aware that this should be taken seriously!

Of course, my responsibility will be to make sure the Digital Leaders have enough training and support to manage these tasks, and are always adequately supervised.

I look forward to receiving lots of applications, and working with the children who will help lead computing and online safety at Bowsland Green Primary School. This is a very important role and I hope that the children will enjoy it. If you have any questions, please come and speak to me.

Yours sincerely,

Mr Wells

(Computing subject Leader)
