

LKS2 Newsletter – End of Term 3

In Lower Key Stage Two, we have been loving our learning so far in 2019 and are demonstrating a continued commitment to showing our Bowsland Best. Our work on making resolutions and setting goals has helped us to focus on showing role model behaviour and being ready to learn – whatever it is that we're learning.

Thanks to your feedback and support, we're excited about the new behaviour system that begins after the holiday. Have a brilliant break and we'll see you in Term 4!

Key dates

Term 4

Monday 25th February – Term 4 starts

w/b 4th March – Scholastic Book Fair

Monday 4th and Wednesday 6th – Parent Consultations

Monday 1st April – LKS2 Production Afternoon Performance

Tuesday 2nd April – LKS2 Production Evening Performance

Friday 5th April – End of Term 4

P.E. this term will again be on **Mondays** and **Fridays**:
remember to come to school in your P.E. kit on those days.

Home learning comes home on **Wednesday** and is due back on **Monday**.

While learning about sound in science, we made tin can telephones. The voice travels down the string as a vibration, which our ears then receive and interpret as sound. It only works when the string is taut, though, as we found out in this session...

We welcomed Nat and her team of students from South Gloucestershire and Stroud College for an afternoon of circus skills.

Chloe, Hannah and Jake wowed us with their acrobatics and their flair. They weren't quite 'mini' teachers like LKS2, but they were superb coaches and tutors!

Juggling teaches many talents. Balance, throwing and catching, hand-eye co-ordination and picking up dropped beanbags are all skills that will prove useful through life.

Once again, our team made their teachers proud as they demonstrated PART-E values.

Thanks again to everyone who made this wonderful afternoon possible!
