

Sports Premium Funding 2017-18

How much Sport Premium did we receive?

This year's funding will be calculated by reference to the number of primary-aged pupils (between the ages of 5 and 11), as recorded in the annual schools census in January 2017. Bowsland Green Primary School received £18,240

What are the aims for BGPS?

Schools must spend the additional funding on improving their provision of PE and sport, but they will have the freedom to choose how they do this. Schools spend their money in different ways according to pupil need. At BGPS, our aims for impact are:

- To increase the breadth and quality of the curriculum PE in all classes
- To increase the PE skills of all pupils to enable readiness for secondary school
- To increase the opportunities of pupils to attend lunchtime clubs
- To build access for students to sports clubs in the local area and region
- To increase the celebration of sport across the school
- To enrich the children with more sporting opportunities

How did we spend our Sports Premium funding?

This year, the school purchased a range of services from a partner company, Progressive Sports.

Progressive Sports Vision – We want young people to be inspired by Physical Education and Sport, to be able to make friends and have life-long memories to cherish. We want children to have the opportunity to develop a passion for sport by giving them exposure to different sports at an early age. We believe that by giving children more opportunities they will develop more overall.

Sport is a lot more than just a game or a match, it is unique! It teaches young people self-discipline, perseverance, teamwork and it helps to raise self-confidence and self-esteem- it moulds you into who you are, which supports the values here at Bowsland Green. Sport can bring people from all different backgrounds together and help to unite communities, schools and families. It is the glue that can stick us together.

The company provided our children and staff with:

- High quality sports teaching and learning for all year groups
- Mentoring to develop positive attitudes and resilience, through sport
- Intervention to promote positive team working
- Intervention to develop co-ordination, balance, gross and fine motor skills
- A range of extended opportunities to provide competition and skills development for all pupils
- Support and development for subject leadership across the school including leading opportunities to take part in local festivals and competitions

Progressive Sports scheme of work

We have purchased the Progressive Sports scheme of work to ensure there is consistency across our P.E curriculum and to ensure there is a better development of skills as children progress through the school.

New Sports Equipment

At the beginning of the year, we purchased a range of sports equipment to ensure the children have high quality equipment for their P.E lessons. This has also meant that they have the correct equipment for new sports being taught, such as new dodge balls.

A contribution to the playground

Some of the funding has been added to the playground fund. This year we have purchased a new trim trail and plan to add even more equipment for the playground. This has ensured that the children can enjoy being active during lunchtimes.

What has the impact been?

Pupils have benefitted from the challenge and breadth opportunities from teaching and learning provided by specialists, improving the quality of experience and achievement in PE and Games. Pupil attitudes have improved and their application and engagement in school life has increased rapidly, allowing them to thrive and make academic progress alongside social and personal development. The support and development

of leadership has enabled succession planning for the future in ensuring that high quality sport is an embedded part of school life. The children are enjoying playing during playtimes and lunchtimes. This has also helped behaviour improve, as there is more for children to do.

How many Year 6 children can swim 25m?

60% of our Year 6 children can swim 25 meters.
