

Sustainability Squad

Donation Station

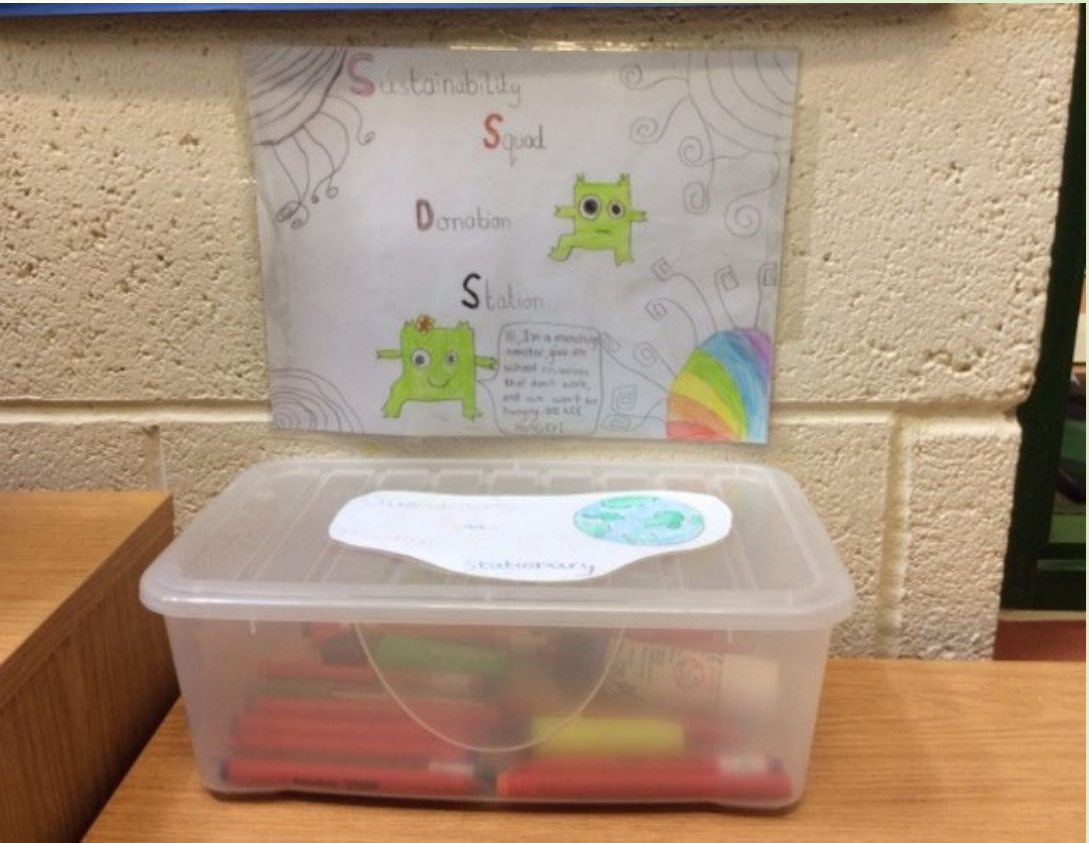

What we have been up to....

The Sustainability Squad have found a company that will recycle used pens.

We emailed them to find our nearest drop off point (which is in Yate).

We have decided to create a 'Donation Station' so everyone in the school can donate pens that do not work any more.

<https://www.terracycle.com/en-GB/>

The Donation Station

Please collect any pens that do not work any more.

Give them to your Sustainability Squad volunteers or put them in the 'Donation Station' which will be located in the Lower Key Stage Two area.

The Sustainability Squad will then check to make sure they have run out.

We are going to contact them again to see if they will recycle used glue sticks and broken rulers.

We hope you agree that this will help our environment.
